CHARLIE BESSEE received a car load of Milwankee Ecer yesterday. THE handful of of police had all they could do yesteniay afternoon. JUSTICE FARRELL is confined to his room

with a severe attack of pacumonia. J. C. CROMWELL was among the arrests booked at the police station less night. OFFICER MALONE was out on the streets vesterday for the first time in two weeks. THERE are now upward of twenty appliants for the position of county physician. YESTERDAY was as we predicted, as rice a

day as could have been wished for at this season of the year. A New time card has been issued by the Missouri Pacific railroad company, but no change in train time is made. A FAMILY row at one of the corners of Kiowa and Fifth streets, occasioned some excite-

ment yesterday afternoon. Some thief a few days ago entered Defhis fish store and abstracted a valuable coat. The police are looking for the property. MR. OWFN DUFFY tendered his resignation as Councilman from the Third ward at the meeting of the Council on November 7th. SEVERAL parties have "signified their in-

tention" of becoming applicants for the podtion of superintendent of the poor farm. THESE Louis bakery was the scene of a small row hast night, but the offender was put out too soon to make the damage done,

special meeting of the Board of Education

Taylor was in the chair, and the following membe s were present: Messus. Havens, Wilson, Wever, Few, Swan, Richards, Callahan, Flesher and Crancer. The business of the country of the members of the country of the members of the country of the cou the meeting was to consider the two semion question of the four grades, 7, 8,9 and 10 in the public schools. Prof. Wherrell, who was present, stated that after a careful examina-tion, he had discovered that the per centum of pupils who eat three meals per day, is \$65-10, and of those who can go home to din-

of the Board, in our opinion is one which will at once become apparent; parents who have children in both the higher and lower grades. One will be required to be at dinner at twelve o'clock in order to be able to get back to the second session, and after this the meal will have to be kept waiting or a new one prepared for the little one win will toddle in at about haif past one o'clock, in the afternoon. It occurs to n that if a torre-hours session is not long enough, it would be better to fix the time of commencement at eight o'clock, in the morning, and close at tweive.

Teachers' Institute. All the teachers were in attendance at the

Institute yesterday morning. The following soints which the Superintendent has said he would repeat, were brought before the teach-

1st. He could not see how teachers could be successful in the higher grades and not study their lessons. Many of the teachers did not study their work, made no preparation of points to be brought up before their lasses, and the result was that there was not satisfactory work being done in the grammar grades. Too many were teaching in ruts; were too ready to be told and not willing to work out their own plans. The Superintendent saw the teachers complained that their pupils did not think, to which he would reply, that the schools are, as the teachers and thinking teachers made thinking schools. The first paper was by Miss Smither, grammar in 4 B. She did not think grammer was taken up properly. Her plan was analytical which she fully illustrated. She stated that in order to make a success of teaching grammar that she could not trust books but had to study and prepare every sentence she stisfactory work being done in the grammar mar that she could not trust books but had to study and prepare every sentence she gave before entering the class, Mrss Ferguson ennumerated the advantages and disadvantages of Printing, in the tenth grade.

Mr. Lane gave some valuable bints on a course of penmanship and on teaching the

same.

Miss Moore illustrated her plan of teaching children to understand what they had learned. The class which she used, did very nicely and the plan was generally approved. Following this exercise the superintendent said that he hoped that every teacher would not only teach groper emphasis and inflection but also teach the children to read ideas as well as words.

Economy is Wealth.

A penny saved is as good as a penny earned. This rule holds good in every department of business. The merchant should buy his goods where ne can get them the chaspest, hereby enabling him to sell them again to his customers at reasonable prices, and at equals Dr. Buil's Cough Sycup for throat and the same time make a fair living profit for

And in this connection, we may add that B. Flesher the Pioneer Dry Goods Merchant of Leavenworth, by going to market with the ash in his pocket, can buy goods cheaper than any merchant who buys on credit, and onsequently sell them cheaper, giving conamers an opportunity of saving money when they buy goods of him.

they buy goods of him.

Mr. Flesher has now in stock an elegant line of black silks, which were bought for cash at the recent large auction sales in New York, and which he is selling at prices hereto-fore unheart of, and which defies competition. He also has a large stock o cloaks, which he is selling at prices which would astonish the closest buyer. He has also in store an elegant line of all kinds of staple and fancy dry goods, consisting of special bargains in cashmere, alpacas and dress goods. Ladles' and Gents' underwear, flannels, cassimeres, jeans, prints, domesiles, damasks tuffle, linen bleach and brown, towels, napkins, notions, &c., &c. Call and be convinced that you can save money by purchasing goods of B. Flesher.

The Atchison Bridge. From the Atchison Champion we learn tha 8.8. Todd, superintendent of the bridge at that place, had received a telegram from J H. Wade, President of the Chicago and Atch ison Bridge Co., that he had contracted with the American Bridge Company at Chicago for a permanent pier and approach span, and the work will commence at once. The company are now making arrangement for the primary work, and the machinery House was rented to the U. S. governments yesterday by the Board of County Commissioners at \$530 per year with the privelige of live years.

In Memoriam. A Cincinnati paper has the following notice

of the death of the wife of a former citizen of Leavenworth: The mortal remsins of Mrs. Florence Gould, the deceased wife of Mr. T. Gould, night manager of the Western Union Telegraph office, in this city, were laid to rest in the beautiful Spring Grove yesteriny, just as the sun set in golden splendor. Thus a symmetrical and beautiful life is ended, and the sunshine of a more barny home circle, is eclipsed by the beautiful life is ended, and the sunshine of once happy home circle is eclipsed by the gloom of the grave. The floral offerings of the night operators in Mr. Gould's office were prefuse, and were placed around and grave of the departed lady as a tribute to the memory one who was lovely in life; who, like the loveliest flowers are want to do, perishe early, but who left behind her the perfume of good deeds done, the record of a blameler life, a heritage of love to her motheries babes, and thousands of sweet remembrance to him who was proud to early her wife.

With Type, Ink, &c., and everthing neces-

sary for work, at \$5. and \$10. Euch,

The proprietors of the New York Courses reputation of the New York Courses, which is known all over the United States, is a guaran ee that whatever they offer is as represented.

The presses here offered are large enough to print Cards, Labeis, Letter-heads, and all other small work. They are constructed on the same principles as the large presses used by job printers, and they are guaranteed to do as good work as the best large

On receipt of Five Dollars we will send to any address a self-inking press as aforesaid, together with four varieties of type, and a small can of printer's ink-everything complete for printing. On receipt of Ten Bollars we will send a press of larger size, and more rapid working, with self-acting roll-ers, eight kinds of type and two col-ors of lnk. The operation of using these presses is a simple that any boy of ien years will master it at the first trial. Full printed instructions

It at the first trial. Full printed instructions however, accompany each press.

With the large size a business man can quickly save the cost of a press by doing his own printing. A boy, even with the smaller size, can soon make enough money by printing cards, ect., to pay the cost of his press.

Remember we guarantee these presses, both sizes, to work perfectly. They are now being sold very rapidity, and in every case the purchaser is delighted.

A father cannot do a better thing for his boy than to buy him one of these interesting and useful machines. Boys are highly pleased with them, snd they are more potent than any other influence to inculcate business babits, and win boys from the dangers of idly spent evenings.
